## VOTES of the House of Commons of Ireland.

Martis 1<sup>o</sup>. Die Novembris, 1737.

SEVERAL Members, returned upon new Writs, took the Oaths, and made and subscribed the Declaration, and took and subscribed the Oath of Abjuration, pursuant to the Laws made for those Purposes.

Mr. Secretary Walpole informed the House, That he commanded, by His Grace the Lord Lieutenant, to acquaint the House, That his Majesty had been pleased to return a most gracious Answer to the Address of this House, which he Read in his Place, and delivered at the Table, and the same was again read by Mr. Speaker, and is as followeth,  
GEORGE R.

His Majesty Receiv'd with great Pleasure the Address of the House of Commons, and the repeated Assurances of their Zeal and Attachment to His Person and Government. His Majesty is fully persuaded, that his faithful Commons will cheerfully Grant the Necessary Supplies for the Support of His Government: And they are assured of the Continuance of His Majesty's Favor and Protection, and of the Concern which He has always shew'd for the Welfare and Happiness of His People of Ireland.

Ordered, That his Majesty's most gracious Answer be Enter'd in the Journal of this House.

Ordered, That a Committee be appointed to draw up an Address of Thanks to His Majesty, for His Majesty's most gracious Answer to the Address of this House.

And a Committee was appointed accordingly.

The Order of the Day being read.

Resolved, That this House will, this Day Seven-nights, Resolve itself into a Committee of the whole House, to take into Consideration the Supply Granted to His Majesty, as also his Grace the Lord Lieutenant's Speech.

Ordered, That Hugh Willoughby, Esq; a Member of this House, have Leave to go into the Country for Three Weeks, upon extraordinary Occasions.

Mercurii 2<sup>o</sup>. Die Novembris, 1737.

Ordered, That the Names of such Members, who made Default to appear on Yesterday Sevensnight, be again called over to Morrow Morning.

The Incorporated Society for promoting English Protestant Schools in this Kingdom, having met with such good Success, that we have the following Accounts from several Parts of the Country, viz.

From the County of Down, that several Irish Families there, now call themselves after English Names, viz. Those of the Name of Magher, which signifies Field, call themselves Field; those of the Name of Ke, signifying King, call themselves by that Name, &c.

From Ballynahinch Charter-School in the said County, that the Children are all healthy and in good Order, tho' they eat Flesh Meat but once a Week, Roots, Milk Pottage, Bread and Milk, &c. being their usual Food.

That a fine Crop of Flax has been sowed off the School Lands, which will greatly supply their Linen; their Garden in good Order, by the Labour of the Children, all happy in their Lot, and great Application far and near by the Popish Parents, to have their Children admitted into the Places of those going out Apprentices to Protestant Masters and Mistresses.

From Creggan, in the Barony of the Fews in the County of Ardmagh, that on Tuesday the 13th of September, the Charter-School there was opened in the Presence of several Protestant Gentlemen of that Neighbourhood.

The Country near the Place, noted in the Irish Rebellion of 1641, for Popish Cruelties and gross Superstition, is now growing every Day more and more into a Peaceful and Protestant Settlement; to which the Residence of the Incumbent, the decent Repair of the Parish Church, and a good Parsonage House lately erected near the same, have not a little contributed: Add to these the new Weavers Houses

fill'd with Northern Protestants carrying on the Linen Manufacture in all its Branches, almost within Sight of the Charter Foundation, give great Life to the Whole; and all together make a very pleasing Sight in that Popish and once very wild Country.

To this Foundation many poor Papists have already sent their Children from afar, viz. From Munster, the Counties of Dublin, Meath, Louth, Down, and Antrim, and from the remote Parts of the County of Ardmagh. The School is made to lodge Thirty-two Children of both Sexes, of which Number Twenty have been already received, clothed, lodged, dieted and set to work, and are to continue till fit to be apprenticed out at the Expence of the Society.

The Master and Mistress are Persons well recommended, and seem very fit for such a Charge; and it is hoped that the Directions of the Incorporated Society being carefully pursued by the Local Committee of this School, the happy Effects of this Foundation (with others already established) will answer the noble Designs of his Majesty's Royal Charter.

The Gentlemen of the Local Committee write, that as soon as the Number of Children should be compleated, they would send their Names, with the English similar Appellations to which they should change them, with their several Ages, and Places from whence they came, to the Society of Dublin; and that the said Committee would in a few Days form some short plain Rules out of those of the Society, for the Conduct and Employment of the Master, Mistress, and Children, as also in regard to their Diet and Behaviour; which after they had the Society's Correction and Approbation, they desired may be printed on a large Sheet of Paper, to be framed and hung up in the Charter-School.

They further add, that they could not express the Pleasure it gave them to see the poor, dirty and almost naked Children in their new Livery; that they appeared quite different Creatures, and shewed wonderful Joy and Transport themselves in their Change.

That the Priests had in vain been curling the Popish Inhabitants of Creggan, for sending their Children to School.

R. Donaldson, Esq; late High Sheriff of the County of Ardmagh, and one of the Annual Subscribers to the Charter-School of Creggan, did (on the Day it was opened) make a Present of 4000 Ash-Trees, to plant on the Charter School Lands, now inclosing and dividing into Parks, &c.

Two other Charter-Schools, viz. Ballycastle, in the County of Antrim, and Delahastery, in the County of Wicklow, it was expected would be compleated about Michaelmas, and fit to receive their Complement of Children.

Mr. Cuffe, at Ballinrobe, in the County of Mayo, has laid the Foundation of his Charter-School in that Town; on which Occasion Mr. Cuffe the Undertaker for Buildings, and who drew the Plans for the Charter-Schools, attended with a Dublin Mason, to begin and carry on the Building.

Last Monday died at his Lodgings at Hampstead, Josiah Diston, Esq; a Gentleman far advanced in Years, of which he spent many in the Service of both the City and Country, from his first Seat in Blackwell Hall, as a Factor, to his last in St. Stephen's Chapel, as a Senator. He was so long ago as the Year 1702, chose a Director of the Bank of England; and was re-chosen to the same Honourable Trust, by the Proprietors of that wealthy Corporation, in the Years 1705, 1708, and 1711: And he was once, if not more, a Director of the East India Company. He was also in 1705 chose one of the Trustees and Managers of the Imperial Loan. In this Year we find him likewise return'd to Parliament for the Borough of the Devizes, in Wiltshire, which he also represented in several future Parliaments, and might have done so to this Day, had not the Advance of Old Age, with concurring Misfortunes in Life, depress'd his Abilities both of Body and Mind. The Report of Sir Robert Walpole's being ill of the Gout, at his Seat at Houghton in Norfolk, is groundless.

**ANTI-SYPHILICON.**

**THE only short and most infallible Cure in the Universe for the Venereal Disease, from the slightest Infection to the most extreme and desperate Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant Virus, and the very Bones are affected with it.**

Fresh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever so severe, are entirely cur'd off in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Venereal on one Hand, or a seminal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the French Disease, attended with Nocturnal Pains, universal Breaking out, and all the other most exasperated Symptoms, are overcome by it, and effectually and much more safely cured than by Salivation, Inungation, or any other violent whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as to bespeak it the only apposite Remedy, or true Venereal Antidote in the World; and this some Thousands have to their great Joy experienc'd.

It is pleasant to take, occasions no Sickness or Discomfort, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, may by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates it Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relicks of former Injuries, may by a few Doses of it entirely free themselves from all Suspicion of that Kind; for it subdues no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on that Account, in all scorbatic, scrophulous, and even venereal Eruptions or Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Day, than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHILICON is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value, and is appointed by the Author to be had only at Mr. RAMMAGE's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready seal'd up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is entirely rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.

**The Great Carminative.**

*A most famous Tincture for the Wind Cholic,*

**IN what Part soever lodged; for at once taking, and in five Minute's Time, it perfectly cures the severest Gripings in the Guts, and immediately expels the Wind from the Stomach or Bowels (as it were) to its natural Place.**

For all wandering Pains in any Part soever, which are some Persons the Forerunners of a fixed Rheumatism, in others the Gout (mistaken many times under the Notion of Strick-tick Ailments) this famous Medicine has not its Fellow, having wrought Wonders in these Cases on great Numbers of People, who, before taking it, could neither sit, stand, nor eat or sleep; but were in intolerable Pain Night and Day, and taking less than half a Bottle, were absolutely freed from their present Pain, and, by a short Continuance of the Cure, recovered to perfect Health again.

As for any Belchings or Hiccups, proceeding from Wind, or, in short, in any Case of Wind, it may be depend'd on as the best, safest, most expeditious, and most sovereign Remedy ever yet known.

It is sold only at Mr. King's Picture Shop in the Piazza, near the Royal Exchange, and at Mr. Martin's Toy Shop, the Sign of the Three Rabbits near Durham-yard, in the Strand, at 3 s. the Bottle.

By the said Mr. King and Mr. Martin is also sold for private Use, a small Bottle.

**The Princely beautifying LOTION.**

Whole INIMITABLE VIRTUES and TRANSCENDENT EXCELLENCIES have gained it so much Reputation, that envious Imitators endeavour, tho' in vain, to counterfeit it.

It beautifies the Face, Neck, and Hands to the utmost Perfection, and is in the greatest Esteem amongst Ladies, &c. of the first Quality. No Words can sufficiently express its Virtues; for it is not of the Nature of Paint, which puts a false and unnatural Gloss on the Skin; but is a Remedy that, by its Use, really gives a Lustre to the most Beautiful, by clearing the fine Features of the Face, and is so safe, not having the least Grain of Mercury in it, that it may be taken incessantly, and it smelted to, is really good against Vapours.

It infallibly kills Worms in the Face, takes away Freckles, Spots, Wrinkles, Pits, or Marks of the Small-Pox, and infallibly cures any Defects in the Face, giving a charming Lustre and fine Air to the Features, to Admiration.

As for such Persons as are of a swarthy Complexion, or troubled with any disagreeable Redness, Roughness, Mole, Heats, or the like, it is not to be parallel'd; for it immediately smooths, clears, plumps, nourishes, and whiteneth the Skin to the last Degree, and makes those Persons who before look'd bagged and old, to look young, beautiful, and fair, and, in short, it far exceeds any thing that was ever yet known or made publick, for clearing and beautifying the Skin.
